Dear Mr. Heisberg -

The material I promised you will not be in the mail - not for a while anyhow.

You said you had not gotten into the Mind Control as yet. Of course, if you had to fight it as I have had to do, then you would be interested. It's our biggest enemy today. I manage to keep my own sense, a big problem to the F.B.I. My big concern at the moment is to get my husband home. An attorney told me to go over there and move right in. And this is America, the land of the free! Mr. Heisberg, I do have valuable material - and the truth. If you want the truth, it's here. I only wish you were here - right now. This whole area is monitored. It's absolutely absurd.

Last week I sent a mailgram to the Committee. This is all another big cover-up. And they'll never acknowledge any mail - other than to make light of it - such as having a Dean interrogated by a Mr. Edgar. And a few more stabs. And about Ray - (another name in the Conspiracy) the FBI would never have trusted that to the bumbling hands of anyone.

I'm writing this quite hurriedly - however, the "N" is part of their game - Noffs - Naegle - Neumeyer - Neary - and many more -

Your books have given me much info. such as May '63 when the State Dept. recognized a letter that Oswald had written in '61. I have the answer to that....

Also - In the picture on back of Mark Lane's Rush to Judgment - a man in dark suit to the left is Bill Steger, Atty then. Now a Fed. Judge! The date is significant - and the answer will telephone you again.

(world)

P.S. Our Country is in a sad sad state.

The only answer is to get this Token rule of - some kind

Sincerely -

Helen McNamara
